

VM654P

Armed Cable Kit

Product overview

The VM655P is as well protected junction box. It has a steel insert in the lid to protect it from drilling and a tamper contact to protect it from being opened. There are two terminal blocks with a total of 26 terminals.

Preferably the armoured cable kit VM654P should be used together with the junction box as a protective transfer from the door of a safe or vault to the body or wall.
