## Convertible to Monopod Camera Tripod with 3-Way Swivel Head

**Reference / Model****SAM-4643 / SAM-4643****Description**

Portable monopod camera tripod with panoramic swivel head. Suitable for DSLR cameras or DV video cameras. The height of the tripod can be adjusted from 53 cm to 177 cm. The tripod can be converted to a monopod in seconds with height ranges from 44cm to 134cm.

Tube made of aluminum alloy with non-slip rubber. The plastic feet are rotatable and can be adjusted to non-static floors. The tripod features a 3-way swivel head with quick-release stage. It features 360 ° pan rotation and allows you to take images at any horizontal and vertical angle.

Light weight of only 1.8 kg. Includes a storage bag, ideal for easy transport. The adjustable tripod also has a multi-function hook that allows you to hang additional weight for increased stability and a telescopic handle.

**characteristics**
